Our Ref: C08-307/WH.01/L010

To whom it may concern

**Cathay Pacific HKIA Lounges -The Bridge  
Work Reference Letter**

Yearfull Contracting Limited (Yearfull) was appointed as the Main Contractor to carry out the fitting out works for the captioned project, situated within the Hong Kong International Airport. The project included the fitting out of the high-end hospitality, 2500m<sup>2</sup> Business Class lounge, The Bridge for Cathay Pacific Airways.

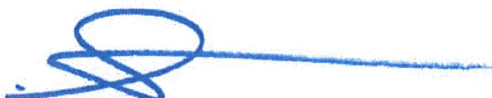

This project possessed numerous challenges for Yearfull, from ultra-high tech back of house requirements to zero tolerance Foster and Partners detailing for front of house finishes. A large portion of the front of house finishes were sourced globally, including Carrara white marble and hand burnished brass from Italy, kitchen equipment from Australia and Germany as well as fine detailed bronze finishes from Japan.

Yearfull proved to successfully and seamlessly integrate these specific requirements and challenging suppliers into their construction programme and have effectively coordinated all consultant design changes, site constraints, landlord requirements and client feedback and delivered an award winning project ahead of schedule and under budget.

In particular, Joe Yu and Andy Hui have excelled in pulling a highly motivated and talented team together and have lead by example throughout the timeline of the project to guarantee the success of this project. No task was too big or too small for Joe or Andy to get involved. I really cannot emphasise enough their determination to drive every issue to a solution with the timeline and budget of the project as their main focus.

We would like to thank Yearfull for their professional performance and seamless delivery of this project. We have no hesitation to recommend Yearfull to any of their potential clients in the future.

Yours faithfully

James Stewart  
Senior Project Manager
